Somerset
NHS Foundation Trust

Learning Disability
Liaison Nurses

We are Learning Disabilities Hospital Liaison Nurses.

Our names are:

Sara Rowlands Louise Atkinson

Our job is to help people who have learning disabilities when they go to hospital for an appointment or to stay.

A screenshot of an NHS Health Passport form for Adult Services. The form includes fields for Name, Hospital Number, Address, Telephone Number, Next of Kin, and Telephone number. It also has sections for 'Any Relevant Care Plans / Forms (Please bring these with you)', 'Consent to sharing', 'End of Life', and 'People involved in your care (nurses, carers, therapists, health, social care, etc)'. There is a 'Completed By' section with a signature line and date, and a 'Verbal Capacity Act 2005' section with a checkbox and explanatory text.

We will use your health passport so staff know how you need to be supported.

If you do not have a health passport we can make sure you have help to make one.

We will work with:

You

Your Family and Friends

Carers

Hospital Staff, Community Nurses and Community Staff
E.g. Social Workers, Physio.

We will help if you need to stay in hospital or visit hospital.

We can help if you need more visits to the hospital so you can get used to it.

We can help if you need a longer appointment or if you need an appointment at a time that is good for you.

If you stay in hospital, we will make sure you have everything you need before you go home.
